

Since the latest Raspberry Pi OS has deleted some libraries, your camera may not work. We are working on this software issue.

We will update the code soon. Sorry for the inconvenience.

Now please install 2021-05-07 Raspberry Pi OS for our products.

1 Download it.

https://downloads.raspberrypi.org/raspios_full_armhf/images/raspios_full_armhf-2021-05-28/2021-05-07-raspios-buster-armhf-full.zip

2 Use imager tool to install.

For windows: https://downloads.raspberrypi.org/imager/imager_latest.exe

For mac: https://downloads.raspberrypi.org/imager/imager_latest.dmg
