

Hi Phoebe!

Dear Phoebe,

We hope you are well and that your school is good and you are having fun while you learn new things. We also hope that you have good friends to play with and spend time with. Our kids started their school in September. They do school at home so they don't get to see a lot of other kids except for at church. We are trying to do some fun activities with other kids that do school at home also so that the kids can have some friends. They are looking forward to having time off from school for the holidays though. I'm sure you are also looking forward to your time off of school.

We always pray for you at night before bed and talk about you. We wonder what your way of life is like, and we would like to ask you a lot of questions. Our children would like to see animals from Kenya and taste food from Kenya. We are excited about your life and how God will use you.

In our home we have a picture of you that hangs in our kitchen. Thank you for the joy that we see in your face, it helps us to know that nothing can stop us from having joy in God.

Hi Phoebe!
